Forecast for Saturday 13 Nov 2021

Weather: Any thicker cloud will break up soon after dawn giving a largely sunny day, although patchy cloud may linger across eastern Angus and the Aberdeenshire hills. A dry evening, but high cloud spreading east.

Chance of cloud free mountain/hill tops above 800m: 80-90%.

Visibility: Very good, some patchy cloud around 700-800m early morning, but this should quickly disperse across most hills, perhaps lingering until the afternoon over eastern most hills.

Met Office Aberdeen Meteorologist's View
Best of the sunshine in the west, particularly across the Perthshire hills.

Forecast for Sunday 14 Nov 2021
Weather: High cloud thickens and lowers through the early hours. Then a mainly dry but cloudy day, with cloud bases lowering through the day. Some patchy rain may reach the far western hills around Braemar by midnight.

Maximum wind: South becoming Southwest 20-25 gusting 30-35 mph. Note, strongest winds may be below the higher summits at around 800-1000m.

Chance of cloud free mountain/hill tops above 800m: 40-50% around dawn, deteriorating to nil through the day.

Visibility: Good at first for many hills, but soon falling poor at height, and later to low levels. Patchy cloud above 700-800m across the Perthshire and Angus hills soon after dawn. This becoming extensive above 600m across all ranges by the afternoon, and down to lower slopes across the southern hills.

Temperature: **Glens:** Plus 7 Celsius rising to 9 Celsius
At 800m: Plus 4 or 5 Celsius
Freezing level: Above the summits.
